

IGNITE IMPACT SNAPSHOT

Rajalakshmi Engineering College

24 September 2026 | Third-year students across engineering disciplines

ABOUT THE SESSION

Ignite is a practical bridge between placement preparation and career readiness.

The first session brought together about **80 nominated students** and used real workplace situations, two simple frameworks and reflection exercises.

~80

students attended

43

feedback responses

54%

WHAT STUDENTS TOLD US

4.65 / 5

average usefulness

98%

rated Ignite 4 or 5

98%

better understand career readiness beyond placement

86%

likely / very likely to act on their chosen next step

REPEATABLE THEMES

Beyond placement Students repeatedly distinguished getting the job from being ready to work well once they get there.

Real workplace judgement Mistakes, pressure, ownership and how to respond in real situations were memorable.

Articulation matters Students valued learning how to turn experiences into evidence and explain them clearly in interviews.

Action over intention Several comments focused on practice, upskilling, consistency and taking one small step.

IN THEIR OWN WORDS

"How to work with real world experiences."

"I have always struggled to articulate, but after this session, I feel quite confident of building my articulation skills."

"How to face the interview and how to be ready after getting the job."

"How to handle real workplace situations."

MOST USEFUL PARTS

61% turning experiences into evidence | **53%** practising articulation | **47%** real workplace situations

PLACEMENT PREPARATION HELPS YOU GET THE OPPORTUNITY. CAREER READINESS HELPS YOU NAVIGATE IT WELL.

The Evolve Foundation

Helping young people understand themselves and navigate life well.
